First Steps, Early Success

Since Vito & Joe was founded in 2007, the company has already earned itself a name as a highly successful enterprise for designing and producing handbags and make-up pouches on its domestic German market. Teaming Italian style with exceptional product quality, Vito&Joe collections are designed and produced for both our own brands as well as for private labels.

Only the Best

2010 saw Vito & Joe enter the international market with the clever concept of combining the best of all worlds: Italian design, global fashion trends, German efficiency, exceptional service all over the world, production facilities in the Far East and a truly cosmopolitan corporate philosophy.
